27-06-2013

Bibliography – KBI

Publications in International Journals

Alfons, A., Templ, M., Filzmoser, P.
Robust estimation of economic indicators from survey samples based on Pareto tail modeling.
Journal of the Royal Statistical Society: Series C (Applied Statistics), 62, 271-286.

Artigues, C., Leus, R., Talla Nobibon, F.
Robust optimization for resource-constrained project scheduling with uncertain activity durations.
Flexible Services and Manufacturing Journal, 25(1-2), 175-205.

Atkinson, A., Vandebroek, M., Berger, M., Morgan, J., Bailey, R., Waite, T., Woods, D., Stone, M., Critchley, F., Ridout, M., Torsney, B., Anderson-Cook, C., Boukouvalas, A., Cornford, D., Brien, C., Ceyhan, E., Chatfield, M., Cox, D., Draper, D., Manteinga, W., Porcu, E., Goos, P., Haines, L., Holling, H., Schwabe, R., Jones, B., Majumdar, D., Kadane, J., Kunert, J., Lopez-Fidalgo, J., Maruri-Aguilar, H., Mateu, J., Rodriguez-Cortes, F., Gonzalez, J., Muller, W., Stehlik, M., Mylona, K., Notz, W., Pronzato, L., Robinson, T., Smucker, B., de Sousa Bueno Filho, J., Stehlik, M., Strelec, L., Steinberg, D., Stillman, E., Tsai, P.
Optimum design of experiments for statistical inference: discussion.
Journal of the Royal Statistical Society: Series C (Applied Statistics), 61, 369-401.

Audenaert, A., De Boeck, L., Geudens, K., Buyle, M.
Cost and E level analysis of different dwelling types and different heating systems with or without heat exchanger.
Energy, 44(1), 604-610.

Autin, F., Freyermuth, J., von Sachs, R.
Combining thresholding rules: a new way to improve the performance of wavelet estimators.
Journal of Nonparametric Statistics, 24(4), 905-922.

Beliën, J., De Boeck, L., Colpaert, J.
Managing variability in manufacturing and services.
Review of Business and Economic Literature, 57(3), 302-315.

Beliën, J., De Boeck, L., Colpaert, J., Cooman, G.
The best time to invest in photovoltaic panels in Flanders.
Renewable Energy: An International Journal, 50, 348-358.

Beliën, J., Demeulemeester, E., Cardoen, B.
Improving workforce scheduling of aircraft line maintenance at Sabena Technics.
Interfaces, 42(4), 352-364.

Beliën, J., Demeulemeester, E., De Bruecker, P., Van den Bergh, J., Cardoen, B.
Integrated staffing and scheduling for an aircraft line maintenance problem.
Computers & Operations Research, 40, 1023-1033.

Boute, R., Colen, P., Creemers, S., Noblesse, A., Van Houdt, B.
Matrix-analytic methods in supply chain management: recent developments.
Review of Business and Economic Literature, 57(3), 283-301.

Boute, R., Dejonckheere, J., Disney, S., Van de Velde, W.
Bullwhip in a multi-product production setting.
Review of Business and Economic Literature, 57(3), 354-380.

Caron, F., Vanthienen, J.
Applications of business process analytics and mining for internal control.

ISACA Journal: the source of IT governance professionals, 4, 44-49.

Caron, F., Vanthienen, J., Baesens, B.
A comprehensive investigation of the applicability of process mining techniques for enterprise risk management.
Computers in Industry, 64, 464-475.

Caron, F., Vanthienen, J., Baesens, B.
Comprehensive rule-based compliance checking and risk management with process mining decision support systems.
Decision Support Systems, 54(3), 1357-1369.

Claeskens, G.
Focused estimation and model averaging for high-dimensional data: an overview.
Statistica Neerlandica, 66(3), 272-287.

Coene, S., Dutta, A., Spieksma, F., Tsiotras, P.
On the computational complexity of peer-to-peer satellite refueling strategies. *I NFOR, 50*(2), 88-94.

Coene, S., Filippi, C., Spieksma, F., Stevanato, E.
Balancing profits and costs on trees.
Networks, 61, 200-211.

Colen, P., Lambrecht, M.
Product service systems: exploring operational practices.
The Service Industries Journal, 33(5), 501-515.

Crabbe, M., Jones, B., Vandebroek, M.
Comparing two-stage segmentation methods for choice data with a one-stage latent class choice analysis.
Communications in Statistics: Simulation and Computation, 42(5), 1188-1212.

Crabbe, M., Vandebroek, M.
Using appropriate prior information to eliminate choice sets with a dominant alternative from D-efficient designs.
Journal of Choice Modelling, 5(1), 22-45.

Creemers, S., Beliën, J., Lambrecht, M.
The optimal allocation of server time slots over different classes of patients.
European Journal of Operational Research, 219, 508-521.

Croux, C., Reusens, P.
Do stock prices contain predictive power for the future economic activity?.
Journal of Macroeconomics, 35, 93-103.

Cumps B., Viaene S., Dussart, P., Vanden Brande J.
Towards enterprise architecture infused organisations.
Journal of Enterprise Architecture, 9(2).

De Clerck, D., Demeulemeester, E., Herroelen, W.
Public private partnerships:look before you leap into marriage.
Review of Business and Economic Literature, 57(3), 249-261.

De Weerdt, J., Schupp, A., Vanderloock, A., Baesens, B.
Process mining for the multi-faceted analysis of business processes - A case study in a financial services organization.
Computers in Industry, 64, 57-67.

Defraeye, M., Van Nieuwenhuyse, I.
Controlling excessive waiting times in small service systems with time-varying demand: an extension of the ISA algorithm.

Decision Support Systems, 54(4), 1558-1567.

Dejaeger, K., Goethals, F., Giangreco, A., Mola, L., Baesens, B.
Gaining insight into student satisfaction using comprehensible data mining techniques. *European Journal of Operational Research, 218*(2), art.nr. 562, 548-562.

Dejaeger, K., Verbraken, T., Baesens, B.
Towards comprehensible software fault prediction models using Bayesian network classifiers.
IEEE Transactions on Software Engineering, 39(2), 237-257.

Demeulemeester, E., Kolisch, R., Salo, A.
Project scheduling with resource capacities and requests varying with time: a case study.
Flexible Services and Manufacturing Journal, 25(1-2), 1-5.

Dewilde, T., Cattrysse, D., Coene, S., Spieksma, F., Vansteenwegen, P.
Heuristics for the traveling repairman problem with profits.
Computers & Operations Research, 40(7), 1700-1707.

Fritz, H., Filzmoser, P., Croux, C.
A comparison of algorithms for the multivariate L1-median.
Computational Statistics, 27(3), 393-410.

Goossens, D., Polyakovski, S., Spieksma, F., Woeginger, G.
Between a rock and a hard place: the two-to-one assignment problem.
Mathematical Methods of Operations Research, 76, 223-237.

Goossens, D., Spieksma, F.
Soccer schedules in Europe: an overview.   *Journal of Scheduling, 15*(5), 641-651.

Herroelen, W.
Discussion of 'Probabilistic estimation and allocation of project time contingency' by Gabriel A. Barraza.
Journal of Construction Engineering & Management, 139(2), 253-255.

Huysegoms, T., Snoeck, M., Dedene, G., Goderis, A., Stumpe, F.
A case study on variability management in software product lines: identifying why real-life projects fail.
International Journal of Information Systems and Project Management, 1(1), 37-48.

Kleijnen, J., van Beers, W., Van Nieuwenhuyse, I.
Expected improvement in efficient global optimization through bootstrapped kriging.
Journal of Global Optimization, 54(1), 59-73.

Lambrecht, M., Creemers, S., Boute, R., Leus, R.
Extending the production dice game.
International Journal of Operations & Production Management, 32(12), 1460-1472.

Lieckens, K., Colen, P., Lambrecht, M.
Optimization of a stochastic remanufacturing network with an exchange option.
Decision Support Systems, 54(4), 1548-1557.

Lieckens, K., Vandaele, N.
Multi-Level reverse logistics network design under uncertainty.
International Journal of Production Research, 50(1), 23-40.

Louis, P., Seret, A., Baesens, B.
Financial efficiency and social impact of microfinance institutions using self-organizing maps.
World Development, 46, 197-210.

Louis, P., Van Laere, E., Baesens, B.
Understanding and predicting bank rating transitions using optimal survival analysis models.
Economics Letters, 119(3), 280-283.

Maya Duque, P., Coene, S., Goos, P., Sörensen, K., Spieksma, F.

The accessibility arc upgrading problem.
European Journal of Operational Research, 224(3), 458-465.

Mehta, V., Rycyna, K., Baesens, B., Barkan, G., Paner, G., Flanigan, R., Wojcik, E., Venkataraman, G.
Predictors of Gleason Score (GS) upgrading on subsequent prostatectomy: a single institution study in a cohort of patients with GS 6.
International Journal of Clinical and Experimental Pathology, 5(6), 496-502.

Mercado C., Dedene G., Peters E., Maes R.,
Toward a Dynamic, Systemic, and Holistic Theory for Strategic Value Creation in ICT-Based Services, in Ron Sanchez, Aimé Heene (ed.) A Focused Issue on Competence Perspectives on New Industry Dynamics
(*Research in Competence-Based Management*, Volume 6), Emerald Group Publishing Limited, pp.153-207.

Moges, H., Dejaeger, K., Lemahieu, W., Baesens, B.
A multidimensional analysis of data quality for credit risk management: new insights and challenges.
Information & Management, 50(1), 43-58.

Moges, H., Dejaeger, K., Lemahieu, W., Baesens, B.
A total data quality management for credit risk: new insights and challenges.
International Journal of Information Quality, 3(1), 1-27.

Monsieur, G., Snoeck, M., Lemahieu, W.
Managing data dependencies in service compositions.
The Journal of Systems and Software, 85(11), 2604-2628.

Pana, F., Put, F.
A survey on the evolution of RSVP.
IEEE Communications Surveys and Tutorials, PP(99), 1-29.

Poelmans J., Dedene G., Snoeck M., Viaene S.,
An iterative requirements engineering framework based on Formal Concept Analysis and C–K theory,
Expert Systems with Applications, vol. 39, no. 9, pp. 8115 - 8135.

Poelmans, J., Kuznetsov, S., Ignatov, D., Dedene, G.
Formal Concept Analysis in Knowledge Processing: a survey on models and techniques,
Expert Systems with Applications vol(40), Issue 16, pp. 6601-6623.

Poelmans, J., Ignatov, D., Kuznetsov, S., Dedene, G.
Formal Concept Analysis in Knowledge Processing: a survey on applications,
Expert Systems with Applications vol(40), Issue 16, pp. 6538-6560.

Ranjbar, M., Davari, M.
An exact method for scheduling of the alternative technologies in R&D projects.
Computers & Operations Research, 40(1), 395-405.

Ranjbar, M., Davari, M., Leus, R.
Two branch-and-bound algorithms for the robust parallel machine scheduling problem.
Computers & Operations Research, 39(7), 1652-1660.

Talla Nobibon, F., Coolen, K., Leus, R.
A Note on `Discrete sequential search with group activities'.
Decision Sciences, 44(2), 395-401.

Talla Nobibon, F., Hurkens, C., Leus, R., Spieksma, F.
Coloring graphs using two colors while avoiding monochromatic cycles.
INFORMS Journal on Computing, 24(3), 485-499.

Templ, M., Alfons, A., Filzmoser, P.
Exploring incomplete data using visualization techniques.
Advances in Data Analysis and Classification, 6(1), 29-47.

Tharmaratnam, K., Claeskens, G.
A comparison of robust versions of the AIC based on M, S and MM estimators.
Statistics, 47(1), 216-235.

Tian, W., Demeulemeester, E.
On the interaction between roadrunner or railway scheduling and priority lists or resource flow.
Flexible Services and Manufacturing Journal, 25(1), 145-174.

Van den Bergh, J., Beliën, J., De Bruecker, P., Demeulemeester, E., De Boeck, L.
Personnel scheduling: a literature review.
European Journal of Operational Research, 226, 367-385.

Van den Bergh, J., De Bruecker, P., Beliën, J., De Boeck, L., Demeulemeester, E.
A three-stage approach for aircraft line maintenance personnel rostering using MIP, discrete event simulation and DEA.
Expert Systems with Applications, 40(7), 2659-2668.

Van den Bergh, J., Viaene, S.
Promises from SOA: Reengineering a procurement process at Belgacom Mobile - a case study.
International Journal of Business Process Integration and Management, 18(5), 815-828.

Van Gool, J., Verbeke, W., Sercu, P., Baesens, B.
Credit scoring for microfinance - Is It worth It?.
International Journal of Finance & Economics, 17(2), 102-123.

Vandaele, N., Decouttere, C.
Sustainable R&D portfolio management.
Decision Support Systems, 54(4), 1521-1532.

Vandaele, N., Van Nieuwenhuyse, I.
Sales and operations planning revisited: linking operational and financial performance.
Review of Business and Economic Literature, 57(3), 327-338.

Verbraken, T., Verbeke, W., Baesens, B.
A novel profit maximizing metric for measuring classification performance of customer churn prediction models.
IEEE Transactions on Knowledge and Data Engineering, 25(5), 961-973.

Wei, W., Coolen, K., Leus, R.
Sequential testing policies for complex systems under precedence constraints.
Expert Systems with Applications, 40, 611-620.

Yu, J., Goos, P., Vandebroek, M.
A comparison of different Bayesian design criteria for setting up efficient discrete choice experiments.
Transportation Research Part B, 46(7), 789-807.
